

WHY PARTNER WITH

Natural Industrial Odor Solutions

THE COST OF COMPLAINTS

Permit Negotiations

Additional Emissions Testing and Treatment

Plant Relocation

Temporary or Permanent Down Time

ECOSORB OFFERS THE ASPHALT INDUSTRY A SOLUTION TO ODOR CONTROL

The production of hot mix paving asphalt generates odors that can be strong, persistent, and a nuisance to employees and neighbors. Controlling and abating these odors can be a challenge.

Ecosorb is effective in controlling nuisance odor emissions in refining, terminals, hot mix plants, and transport operations around the US and internationally.
